MR. FREEZE

火鳥

FIREBIRD

Mr Freeze is faced with a real challenge. Armed with a flame thrower he has to determine a route through the fridge and de-ice each of its six compartments. This involves jumping over ice cubes and gaps between the shelves, and avoiding flying food, lasers and guardian robots. You'll need all your cunning, timing and skill to prevent Mr Freeze from being turned into ice. B-R-R-R!!!

## THE GAME

Mr Freeze's task is to de-ice each of the fridge's six compartments while avoiding hazards such as flying food, ice cubes and guardian robots. It doesn't matter which order the compartments are de-iced. Once a compartment has been de-iced (the special button for this is at the top of each screen) Mr Freeze should move down and on to another compartment.

Mr Freeze will lose one of his six lives and turn into ice whenever he is hit by food, guardian robots, or walks into an ice cube. Beware of the lasers guarding the stairs; their effect can be quite chilling!

## LOADING

1. Place the tape in the cassette unit and rewind to the beginning.
2. Hold down CTRL and press the small ENTER key.
3. Press PLAY on the cassette unit.

*NOTE: Full loading instructions can be found in your AMSTRAD CPC 464 manual.*
